Dimension	-	Subwoofer 235 x 215 x 150mm Satellite speaker 170 x 85 x 70mm

FRONT LAYOUT:

BACK LAYOUT:

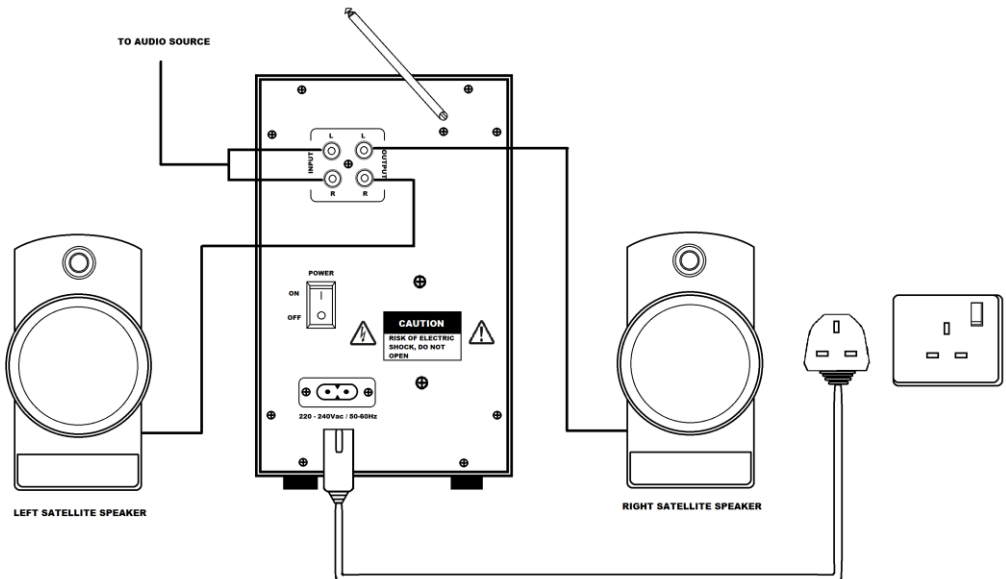

INSTALLATION:

Please read through this manual carefully before setup.

Please ensure both mains and speaker power is switched off before setup.

- Connect satellite speakers to the main unit's RCA output.
- Connect supplied fig.8 power lead to the power input of the main unit.
- Connect music source into RCA line input, use the 2 x RCA to 3.5mm adaptor lead provided if the music source only has 3.5mm output.
- Plug power lead to mains socket and switch on both mains and speaker.

OPERATION:

FM Radio:

To start up FM radio function please follows these steps:

- Press INPUT button on the front panel of the main unit or Mode from the remote control until FM frequency is displayed on the LCD display screen.
- Pressing PLAY/PAUSE will automatically search through all frequencies and register all available channels.
- Once search is finished, the radio will automatically select the radio station that is broadcasting on the lowest frequency. To change station press Previous/Next on the front of the unit.
- If there is poor FM signal in the area, extend the telescopic antenna and move until you receive the best reception.

USB/SD card MP3 player:

USB and SD card inputs are located on the top of the subwoofer. To start MP3 player function, please follow these steps:

- Insert USB drive or SD card into the subwoofer into the corresponding socket.
- Press INPUT on the front of the subwoofer or press Mode on the remote control until USB/SD is displayed on LCD display on the front of the subwoofer.
- Unit will read through the files and automatically play the MP3 files within the USB drive or SD card.
- Pressing Play/Pause will pause the song if the unit is playing or start playing if the song is on pause.
- To skip to the next song press NEXT/FORWARD. To fast-forward the song press and hold NEXT/FORWARD
- To play the previous song, press PREVIOUS/REWIND. To rewind the song press and hold PREVIOUS/REWIND.

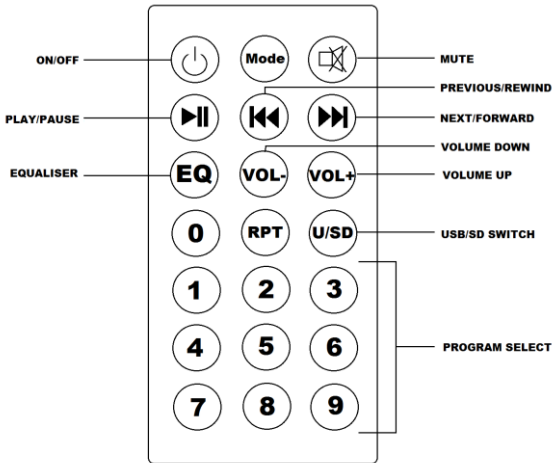

LINE INPUT (analogue input):

- Press INPUT button until LINE is displayed on the LCD display.
- Use 3.5mm stereo jack to RCA adaptor lead provided, or plug directly into the 2 RCA inputs.
- Press play to play your music.

BLUUTOOTH:

- Press INPUT button until BLUE is displayed on the LCD display.
- Turn the Bluetooth option of your device (PC, smart phone, MP3 etc) ON.
- Perform search on nearby Bluetooth devices and look for "MSD_BT". You may be asked for a password when trying to connect, this is: 0000.
- Once Bluetooth is connected, there will be a "beep" from the speaker to confirm connection.
- If you have difficulty connecting, please refer to your device manual for how to switch on, search and connect to Bluetooth.
- This is a duplex Bluetooth system which means the music playing can be control via the front panel or the provided remote control.
- Pressing Play/Pause will pause the song if the unit is playing or start playing if the song is on pause.
- To skip to the next song press NEXT/FORWARD. To fast-forward the song press and hold NEXT/FORWARD
- To play the previous song, press PREVIOUS/REWIND. To rewind the song press and hold PREVIOUS/REWIND.
