

DJT-10 incl. Reloop Battle Track

220327

Besides the seemingly futuristic design, Jaytec's DJT-10 turntable features two start/stop buttons for vertical setup and a motor-off function, in order to simulate the record's slowing down without having to switch off the turntable, as well as a reverse mode for fancy effects. Combined with the exclusive Reloop BattleTrack cartridge this is the ideal solution for ambitious beginners.

features

- Belt drive DJ turntable
- Additional start/stop button for vertical setup
- Statically balanced, s-shaped pick-up with anti-skating
- Pitch range: +/- 10%
