

Enjoys hundreds of VR games or videos and immerse yourself in a truly amazing virtual world using these versatile VR glasses along with your smartphone handset.

## Controls and Features

## Using the glasses

1. Remove the smartphone slide drawer from the unit. Place the drawer on a flat surface and apply the rubber pads provided onto the drawer sides as in Fig1. Please ensure you place them carefully to avoid contact with the phone buttons.
2. Place your smartphone carefully into the drawer ensuring it's secured and that the centre of the phone screen is in line with the centre mark of the slide drawer as in Fig1. Then carefully slide the drawer back into the unit.

**Fig1** (rubber pads indicated by black arrows)

- Place the head-strap over your head and adjust the tension accordingly until you have a comfortable and secure fit.
- Adjust the eyepieces using the eyepiece movement buttons so that they are in line with your eyes and then adjust the capillary focal distance using the levers until you have a focused and comfortable viewing angle.
- If you wish to use headphones whilst using the glasses there are apertures (1&2) on either side of the unit depending on your smartphone set up.
- If you need to use the camera whilst using the glasses, use the sliding panel on the front to reveal the camera lens.
- You are now ready to start enjoying a virtual reality experience. You can find videos, games and other 3D content using the app store applicable to your device or other video hosting apps and websites by using "VR" as the search reference. Please ensure that any content is in split screen format otherwise it won't work.

### Caution

- Do not use these glasses whilst your smartphone is charging.
- If you begin to feel dizzy or nauseous at any point please take a break.
- Pregnant women or anyone with high blood pressure, a fear of heights or who suffers from motion sickness should not use these glasses.
