

SINN7

KSM-10

219321

The Sinn7 KSM-10 is a quality studio condenser mic. Thanks to its broad frequency response and high maximum SPL it is equally suited for MCing, vocal and instrument recording. The powerful and warm yet linear sound makes this mic an indispensable recording tool. Its range of functions comprises three optional directional patterns. The professional swivel mount is included.

features

- Professional studio condenser mic (large diaphragm)
- Directional characteristics (options include polar, figure 8 or omnidirectional pattern)
- Gold-layered quality diaphragm
- Extremely low self-noise
- 3-fold mesh basket to protect mic & reduce breathing and plosive sounds
- Optional bass cut function
- Switchable 10 dB pre-attenuation
- Integrated gold-plated XLR connection
