

THE CONTRAKTOR 2

TRAKTOR LE

Traktor LE offers two decks and an integrated 2-channel mixer. Auto-sync, beat-accurate loops, and a host of other forward-thinking features and effects will have you mixing liquid sets in no time.

Features

- 2 beat and tempo synchronizable decks
- Instant loop function
- 4 amazing master FX
- Ultra-fast database browsing and iTunes™ import

System requirements

- Windows XP (SP2), Pentium III 1 GHz or Athlon XP 1.4 GHz, or Windows Vista (32 bit), 512 MB RAM
- Mac OS 10.4, G4 1.5 GHz or Intel® Core™ Duo family, 512 MB RAM

RELOOP DIGITAL JOCKEY 2

The new Traktor professionals from Reeloo

With the new Digital Jockey 2 Editions Reeloo gives Traktor DJs two controllers that will make sound become truly tangible: A hardware control that facilitates such an immediate access to the world's leading DJ software plus such a great handling of all functions that hardware and software result in a perfect team up.

DIGITAL JOCKEY 2: THE CONTROLLER EDITION

With its noble panel made of brushed aluminium the Digital Jockey 2 lies so well in the hand as never before. Its control panel is clearly arranged and is geared to all important Traktor PRO functions. The red illumination is very striking, white captions indicate the way to the second MIDI level. Together with the black chassis the Digital Jockey 2 also forms an optical unit with Native Instruments Traktor which is already included as the latest LE version.

The Digital Jockey 2's MIDI mapping is enormous: With the glistening white shift buttons a true double assignment of all MIDI commands becomes possible. This way it is possible to control up to 4 virtual decks simultaneously with the Digital Jockey 2 and Traktor.

Features

- Professional DJ USB/MIDI controller
- Optimized for the world's leading mixing software Traktor PRO
- Comes with Native Instruments Traktor LE
- All controllers are full size
- Altogether 69 MIDI controllers

Mixer section:

- Classic 2 channel design
- 1 x PRO Longlife crossfader
- 2 x volume controllers with PRO Longlife line faders
- 2 x 3 band equalizer with Push2Kill turning knobs
- 2 x gain turning knobs

Player section:

- 2 x extra large jog wheels for scratching, cueing, etc.
- 4 different jog modes
- 2 x high resolution 14 bit pitch faders without locking position
- 4 x assignable encoders and 4 x buttons for effect and sample control

Master section:

- Cue mix, volume and master controllers
- Extra large Trax Encoder for quick and easy music library browsing (with load buttons)

DIGITAL JOCKEY 2: THE INTERFACE EDITION

Additionally the Digital Jockey 2 Interface Edition comes with an outstanding 4 channel sound card with 16 bit/48 kHz. It is possible to directly monitor the virtual mixing channel thanks to the headphones input; this way the sound system can also be directly connected by cable to the Interface Edition. The touch-sensitive, two-part jog wheels are an Interface Edition exclusive that facilitate a vinyl-like feeling when cueing, scratching, browsing and modulating effects.

Additional Features

- Professional DJ USB/MIDI controller with integrated audio interface
- Integrated 4 channel USB audio interface with 16 bit/48 kHz
- Master and headphones outputs
- Stereo RCA inputs (with phono pre-amp) in order to connect CD players and turntables plus 6.3 mm microphone jack (with an equalizer of its own)
- Record gain at the device's front side
- ASIO drivers with minimum latency and best audio characteristics
- Altogether 73 MIDI controllers

Touch-sensitive, two-part jog wheels for real vinyl-like control

- Regular jog wheel rim
- Touch-sensitive jog wheel surface
- 4 different jog modes (Scratch, FX Dry/Wet, Search, Pitch Bend)

Comprehensive MIDI mapping for Traktor PRO

- Clearly arranged shift double assignment
- Control of up to 4 decks

Master and headphones outputs

- Stereo RCA outputs for the connection of a master sound system
- 6.3 mm headphones jack for direct monitoring (with an equalizer of its own)
