## Produzent.8 white

Since launching the DieBox series, which has gained raving reviews, Sinn7 has been focusing its attention on the development of nearfield monitor speakers for DJs and producers. The powerful result is the Produzent series!

The Produzent series uses newly designed woofers (5" and 8" respectively, depending on the speaker model) that come with a precise, linear and, most of all, powerful sound, giving the user ideal sound characteristics for productions. Of course the speakers also dispose of a high-quality driver for high frequencies which makes every downmix session become endless fun with its crisp sound. Besides the usual and by now well established connections such as XLR (symmetrical), jack plug (symmetrical) as well as RCA (asymmetrical) the Produzent series also offers connections for all relevant digital formats, like an XLR IN for AES/EBU and 2 RCA connections for S/PDIF IN and THROUGH on the classy speakers' rear panel.

The powerful monitors' sound characteristics can be adjusted according to one's room acoustics via three switches. To do so, there are switches for HF Trim, Acoustic Space as well as for LF Cutoff that help realising almost any assembly possibility.

Besides the technical finesse, like the backlit on/off switch on the front panel, our Produzent series offers the familiar Sinn7 production quality. With an astute choice of colour in black (or optionally white) housing with a classy piano finish and turquoise woofer applications the Produzent series sets a stylish course, while significantly enhancing your monitoring surroundings.

### FEATURES:

- Professional digital near-field monitor speaker
- Magnetically shielded
- Digital interface module
- 5 digital and analogue inputs
- Channel select switch
- Silk Dome tweeter
- Versatile room acoustics and EQ adjustment possibilities
- Optimized edges for reduced edge defraction
- Optimized bass-reflex channels
- Especially fancy with classy piano finish and illuminated on-off switch on front panel

## TECHNISCHE DATEN:

- 60 watt active monitor speaker
- Max. capacity: 120 watt
- Type: 2-way / bass-reflex system
- Acoustic pressure: 90 dB
- Speakers: 20.32 cm woofer, 2.54 cm tweeter
- Frequency range: 35 Hz – 20 kHz
- High frequency switchable: -2 dB, 0 dB, +2 dB
- Low filter cutoff switchable: flat, 60 Hz & 80 Hz
- Acoustic space switchable: 0 dB, -2 dB, -4 dB
- Connections: XLR, 6.3 mm jack and RCA (symmetrical as well as asymmetrical)
- Digital interface module: XLR for AES/EBU, RCA for S/PDIF & RCA thru for stereo
- Backlit on/off button on the speaker's front side
- Dimensions: 375 x 250 x 298 mm
- Weight: 13.8 kg (per piece)
