

iDJ2

MOBILE DJ WORKSTATION WITH UNIVERSAL DOCK FOR iPod

MIX MUSIC FROM YOUR iPod LIVE AND IN COLOR. iDJ2 is the only iPod mixing console that provides full control of your music with a stunning color screen and Numark's exclusive Crate management tool. This extraordinary portable DJ system includes professional features like balanced outputs, seamless looping, full cueing, fader start and Keylock, which ensures that DJs can easily change tempo without affecting pitch.

The iDJ2 features an innovative new iPod docking system that allows users to play and mix two songs simultaneously from a single iPod without the need of a computer. Hook up multiple mass storage devices including additional iPods, thumb drives, and external USB hard drives through the two rear panel USB ports. In addition to USB connectivity, the iDJ2 comes complete with line inputs for audio sources including CD players, turntables and a microphone.

DJs can easily manage their music library using the iDJ2's highly intuitive graphic interface, with a full-color LCD

screen. The display offers crystal-clear visual track-profiling for easy detection of energy changes in tracks. Numark's unique Crate feature simplifies organization even further by providing a master temporary playlist for all your favorite tracks.

iPod Direct Mode turns iDJ2 into the ultimate iPod player, allowing you to play any music from your iPod, including songs purchased from the iTunes music store. iPod docking and charging keeps the music playing and the party going all night long
