CERAMIC SOLDERING STATION (48W)

Professional soldering station with digital display of the temperature. The soldering iron incorporates a ceramic heating element assuring a highly accurate temperature setting and a fast heating time. The bit is directly fitted on the element to minimise thermal loss. The lead of the iron is made of heat-resistant silicone. The iron holder can be mounted on the right or the left side of the station.

Power supply	230Vac, 50Hz
Iron length	203mm
Lead length	1.15m
Output to iron	24Vac
Power	48W
Temperature range	160 - 480Â°C
Dimensions : Station	170 x 116 x 96mm
Weight	1.94kg
